Professional Profile

Motivated and enthusiastic BSc Computer Science student at the University of the West of England, with strong interests in cybersecurity and artificial intelligence. Actively seeking an entry-level role or internship in the computing industry to apply and grow technical skills in a professional setting. Passionate about building secure, user-friendly applications and planning to pursue a Master's in Cybersecurity to deepen expertise in protecting digital infrastructure.

Education

University of the West of England — BSc Computer Science

📍 Bristol, UK | 2022 – Present

- Developed a range of technical and soft skills through coursework and collaborative projects.
- Planning to pursue a Master's in Cybersecurity (2025 intake).
- Relevant modules: Cyber Security, Software Engineering, Data Structures, Machine Learning, Web Development.

French Baccalauréat – Scientific Stream

📍 France | 2021

Brevet des Collèges

📍 France | 2018

Projects

Machine Learning-as-a-Service (MLaaS) Platform

- Built a full-stack system using Django, PostgreSQL, and React.
- Allows users to upload files (text, image, video, audio) and receive ML-based predictions.
- Integrated secure JWT-based authentication and user role management.

1v1 Battle Game in Unity

- Designed a Unity-based battle game featuring a hero with pre-programmed and user-commanded actions.
- Focused on movement logic and AI behavior.

Multi-Agent Robotics Simulation

- Created a simulated environment where robots search for items while navigating terrain features like rivers and trees.
- Emphasis on agent communication, strategy, and environment interaction.

School Information Management Website (Flask)

- Developed a teacher-facing dashboard to manage and view student-module data dynamically.
- Used SQL and Flask for backend integration and user role differentiation.

Technical Skills

- Programming Languages: Python, JavaScript, Java, C#
- Frameworks & Tools: Django, Flask, React, Unity, Git, PostgreSQL
- Web Development: HTML, CSS, Tailwind, REST APIs
- Cybersecurity Awareness: Security legislation, ethical hacking basics, JWT authentication
- Other Skills: Problem-solving, communication, teamwork, adaptability

Languages

- French – Native
- English – Fluent
